

## ELLARSON TO VISIT KOSHKONONG LAKE

### STATE GAME WARDEN AFTER VIOLATORS.

**He Has a Chance To Make a Record if He Desires, as Market Hunters Make No Secret of the Fact That They Violate the Game Law.**

The Milwaukee Sentinel says: J. T. Ellarson, state fish and game warden, was in Milwaukee yesterday, and left last evening for Koshkonong lake to look after the persons who are said to be violating the game laws in that neighborhood. "I have received but one complaint that the law was being violated at Koshkonong lake," said Mr. Ellarson, "and the report that no attention has been paid to numerous complaints that are alleged to have been sent to me is not true. I received a letter from J. B. Doe last week notifying me that the law was being violated, and I immediately ordered a deputy game warden to go there and look into the subject. I suppose he is there now. We have but five deputies in the state and they are kept very busy in different sections, so that it does not infrequently happen that it takes several days before one of them can leave his post to go to a new place. So far as the charge made by C. A. Still, of the Black Hawk club, in a letter to a Milwaukee sportsman is concerned, there are no letters from Mr. Still at my office, nor have there been any there this season.

### Fewer Violations.

"There will be violations of the game law, to be sure, but they are not as frequent as they formerly were, and we have during the first year prosecuted ten persons where one was prosecuted before. There is another thing that I would like to call attention to, and that is that the law of 1897 permitted the use of a boat in hunting ducks in open water, but this privilege was cut off by the revision.

"The charge that deer are being shot in the northern part of the state and shipped to Milwaukee as fish, is news to me. The first intimation I had of any such transaction was in the article published in 'The Sentinel' this morning, and if the writer will furnish me with evidence to prove the truth of his statement, or shows me where I can get it, I will prosecute the guilty persons to the full extent of the law. It is an easy thing to make a statement like that, but it is

### Work Hard

My deputies are working as hard as it is possible for men to work to prevent violations of the game and fish laws. We do not always acknowledge the receipt of the complaint made to us and inform the complainant that we have sent a deputy to look into the difficulty complained of, for the reason that in many cases that would defeat us in our efforts to arrest the guilty parties. Another thing is that I can't appoint a deputy game warden under the law except upon the recommendation of the county clerk, county judge and district attorney of the county in which the appointment is made.

The complaints published in 'The Sentinel' were based on the statements of reliable citizens who indulge in hunting and fishing as a pastime, three of whom said they had written to Mr. Ellarson complaining of violations on Koshkonong lake last fall as well as this year and Mr. Still's letter of Wednesday was offered for inspection on the following day. In the vicinity of Conover, Monico Junction, Three Lakes and Fildel deer, it is said, have been killed all summer.

### Use of Sneak Boats Prohibited.

The law covering the use of sneak boats is given below:

Special attention is called to the fact that under the present fish and game laws of this state, all sneak boats come under the classification of nuisances, and can be seized by the state whenever used for hunting in open water.

The fish and game law of this state, as now in force, will be found in chapter 153 of the revised statutes of 1898.

By this law the use of any sneak boat or boat provided by an owner from the stern, or at any sailboat or boat propelled by an engine, or machinery or any battery, sink box or similar device, or any boat except a row boat or paddle boat propelled with an oar or oars operated from the side, is prohibited.

The law also provides that any person who shall attempt to kill or pursue any wild duck, goose or other aquatic bird, while occupying or using any boat, box or other device outside of the natural covering of reeds, grass or other vegetation growing above the water, or any person who shall construct or use for the purpose of hunting, outside of the natural covering or upon the ice, any artificial blind or ambush, shall be punished by a fine of not less than \$10 nor more than \$50, or by imprisonment in the county jail not more than thirty days, or both such fine or imprisonment.

The law also provides that the unlawful use of any boat or artificial blind shall forfeit same to the state, and upon their being found under any of the conditions which under the law render the public nuisances, they may be immediately destroyed.

### Can't Find Sentinels.

"It is a well known fact that the game law is violated most unblushingly at Koshkonong," says a local sportsman. "Market shooters do not make any denial of the fact that they use sneak boats to kill canvasbacks. If Game Warden Ellarson will visit the lake any time after Oct. 10th—he can with the aid of a field glass, see dozens of men using sneak boats in direct violation of the law. Any Janesville man who shoots at Lake Koshkonong will verify this statement. The scullers make no pretense of secrecy. One man sees an-

other using a sneak boat and says 'if so-and-so can scull, then I can.' And so it goes. In the mean time the man who observes the law can get no shooting to speak of while the law breakers ship large quantities of ducks to the Eastern market.

"If Game Warden Ellarson means business he can arrest one hundred men at Koshkonong this fall. And if he would proceed against the express companies who accept the game for shipment, he can soon stop that practice."

Paris, Oct. 1.—[Special].—A duel was fought this morning between Deputy Charles Paulmier, whose wife shot one of the editors of La Lanterne a few days ago, and M. Turot, author of the article that appeared in La Lanterne and which caused the shooting. Turot was pinked three times.

## EVERY PROSPECT PLEASURES

**Candidate Froelich Finds Indications of Republican Success Everywhere.**

W. H. Froelich, republican candidate for secretary of state, has just returned from a tour of the state in the interest of the ticket. "I have never doubted that our party would be successful," he says, "but I am 25 per cent. more confident now than I was the day after the convention. In my visits to the fairs I have made it a point to talk to men who are not politicians, but who are nevertheless observant of the drift of political sentiment. These men are usually candid, and what they say comes near to being the truth in most instances.

"In some counties I have been told that the republican vote this fall will be fully as great as it was two years ago, and in one or two places I have been told it will be even greater. I am not so hopeful as this, but it is my honest belief that the republican plurality will be about what it was four years ago. The silver question is being kept in the background by the democrats, but I have found that the men who voted against Bryanism two years ago are still doing their own thinking and they are not going to vote for men who represent free silver principles any more than they did in 1896. So far as I can learn a republican victory this fall is assured, and if the weather on election day is good our vote will be large."

## WILL BE A GOOD BOY NOW

**Hugh Kelly Says He Will Never Run Away From Home Again**

Hugh Kelly, the Des Moines, Iowa, boy, who was confined in the Rock county jail for several days, charged with running away from home, and who was sent back a few days ago, writes Sheriff Acheson a lengthy and interesting letter. In it he expresses his thanks for the kind treatment accorded him while here, and says that in the future he intends to remain at home and be a good boy.

He also sent his sympathy to a forty day drunk who is now in jail, and who took quite a liking to the Des Moines boy when he was here.

## TOOK CHARGE THIS MORNING

**New Superintendent of the Street Railway Assumes His Duties**

Mark Cummins, late superintendent of the Janesville street car line, left this morning for South Bend, Ind., where he will make his home in the future.

Ferd Green, the newly appointed superintendent, was given charge of the line this morning, and will conduct it as late this fall as the people continue to patronize it.

The line in all parts of the city is now on a paying basis, and if at the present rate it keeps up there will be no excuse for its closing for the winter.

## PORTO RICANS ARE WELL SATISFIED

### ARE CONTENT TO BE RULED BY AMERICANS.

**Liberated Criminals Are the Only Ones Causing Trouble—Spanish Peace Commissioners Complain of Operations in Cuba Since the Protocol Was Signed.**

Washington, Oct. 1.—[Special].—Porto Rico advises state that the only trouble the American army of occupation is encountering in any part of the island, comes from the depredations of criminals, a large number of whom were released by the Spaniards immediately upon the declaration of peace. These are plundering the planters and householders in all directions. They are being gathered in, however, and most of them will be in prison again ere long. The majority of the people are pleased with the turn affairs have taken. As a class they are indolent and easily managed. They care little what the government under which they live may be as long as they are permitted to enjoy themselves without interference, and as soon as the country shall be rid of the criminal element no fears of popular unrest need be entertained.

### SANITARY REFORMS NEEDED.

**Yellow Fever in Cuba to Be Stamped Out By the Americans.**

Washington, Oct. 1.—[Special].—The most important of the reforms to be inaugurated by the Americans in Cuba will be sanitary. An effort is to be made to stamp out the yellow fever, which has proved so serious a hindrance to the development of the country. Few of the Cuban towns have any system of sanitation. Drainage is almost wholly neglected, and little effort has been made towards procuring a good supply of healthful drinking water. The experience of New Orleans and Memphis have shown that good drainage and pure water are the best means of staying the plague, and the plan followed in these cities will receive attention at Santiago, Manzanillo and Havana. It is believed that from a material point of view the introduction of sanitary reform will pay, as it will afford security to those who desire to take up their residence in Cuba and assist in its development.

### PORTO RICAN EVACUATION.

**Everything Is in Readiness for the Shipping of the Spaniards.**

San Juan, Porto Rico, Oct. 1.—[Special].—The Spanish authorities are working day and night in order that they may turn the government of the island over to the Americans as soon as possible. Two transports are expected to arrive here Sunday for the purpose of taking two thousand Spanish soldiers aboard. This will reduce the garrison and the island will be turned over to the Americans as soon as they depart. Gen. Brooks' troops now occupy two-thirds of the island.

### PEACE COMMISSION MEETS

**Spaniards Will Make Use of the Fact That Americans Help Insurgents**

Paris, Oct. 1.—[Special].—The first official meeting of the peace commissioners took place today. The meeting was for the purpose of exchanging credentials. Rios, chairman of the Spanish commission has been notified by his government that Americans have helped the insurgents since the protocol was signed and is asked to make strong use of that fact in the negotiations.

### Shafter Still Sick.

**Camp Wilcox, Oct. 1.—[Special].—Gen. Shafter is still unable to leave his quarters.**

## TO CHRISTEN THE WISCONSIN

**Miss Stephenson, of Marinette, Will Break a Bottle of Wine.**

Janesville will not have the pleasure of furnishing the young lady to christen the battleship Wisconsin.

Miss Elizabeth Stephenson, of Marinette, daughter of ex-Congressman Isaac Stephenson, will perform the ceremony.

A meeting of the battleship commission was held yesterday morning at the Hotel Pfister, Milwaukee, at which time the selection was made. A probable controversy as to whether water or wine should be used was headed off by decreeing that it should be wine.

The selection of Miss Stephenson was decided upon the first formal ballot. On the informal ballot Commissioner Julius Bleyer, of Milwaukee, and Dr. Wayne Stebbins, of Algoma, voted for Miss Stephenson and Commissioner J. C. Reynolds, of Lake Geneva, voted for Miss Fairchild, daughter of the late Gen. Lucius Fairchild. Then Dr. Reynolds moved to make the selection of Miss Stephenson unanimous and the motion was adopted.

## HOPE FOR FLAME STRICKEN REGION

### SHOWERS HAVE LESSENED THE DANGER.

**Hope That the Forest Fires May Be Kept Under Control—Great Damage Has Been Wrought, the Losses Being Estimated at Five Million Dollars.**

St. Paul, Oct. 1.—[Special].—The forest fires in Wisconsin burst forth with renewed vigor yesterday afternoon. It was thought Thursday night's rain had stopped their progress and that they had been effectually quenched. A heavy rain fell last night in the stricken sections and all danger has passed. The total damage is placed at \$5,000,000.

Denver, Oct. 1.—[Special].—Forest fires continue unabated in many sections. In some portions, however, it is raining and snowing. Much stock is believed to have perished.

St. Paul, Minn., Oct. 1.—[Special].—A heavy rain fell in the stricken district of Wisconsin last night, and it is believed the flames are effectually quenched.

Reports up to noon say sixteen lives have been lost and 500 persons seriously injured.

### Cumberland, Wis., Oct. 1.—[Special].

—Forest fires are still raging between here and Clear Lake, mostly east of Barron county. The town of Clayton, reported destroyed is out of danger. The damage is small but fifty families are made homeless. At Turtle Lake the fire is still burning, but the town is out of danger. Gen. Boardman and Col. Ginty arrived this noon, and gave immediate relief to the sufferers. It is estimated that 100 families lost everything. At Poskin the mill was saved, but other damage was done. Part of Almen was saved. The fire is burning east of here, but aid has been secured from New Richmond.

Milwaukee, Wis., Oct. 1.—The reports from the north country show that the most destructive forest fires since the time when Phillips was wiped off the face of the earth have been raging for several days. There have been some light falls of rain in the fire district, which has somewhat checked the progress of the flames. At Cumberland, on the Omaha road, twenty-five families are homeless and a loss of \$25,000 has been sustained. Clayton, with a population of 300, is reported swept away. A large portion of Clear Lake, a town of 600 people, is destroyed. Almena, where 300 persons lived, is gone from the map.

The city of Barron, where the population is 1,700, was cut off by the flames from communication with the outside world for twenty-four hours, but is safe.

Glenwood, a town of 2,000, on the Wisconsin Central, between Chippewa Falls and St. Paul, has been saved after twelve hours' heroic work by the citizens.

Forty-eight farm homes between Glenwood and Chippewa Falls were destroyed, including thousands of dollars' worth of stock, grain and farm machinery.

Fire departments of Chippewa Falls, Eau Claire and Menomonie have received appeals for assistance from nearly every town in the district.

### Gov. Scofield Takes Action.

Madison, Wis., Oct. 1.—Gov. Scofield Friday received a telegram from J. H. Bunker, president of the village of Turtle Lake, Wis., saying that seventy-five families are left destitute there as a result of the forest fires and asking aid. It is feared here that this dispatch is only an indication of appeals which will be received from other points in northern Wisconsin when communications are restored, and in order that he may be informed of the exact facts Gov. Scofield has ordered Adj.-Gen. Boardman to start at once for Turtle Lake and make a report on the situation and the proper steps to be taken to relieve the distress. An appeal for aid will probably be made to the people of the state.

### Highways Covered with Dead Animals.

Rice Lake, Wis., Oct. 1.—In this locality teams hitched to wagons can be found burned to death along the road; the highways for miles are literally covered with dead animals. The fires seemed to travel in great paths, ranging from one-half mile to four miles in width. The losses farther west have been even greater than anywhere in this vicinity. It is estimated the losses in Barron, Polk, Washburn and Sawyer counties have been at least \$1,500,000. Lumbermen northeast of this city have suffered heavy losses by the fires. Several persons are missing, but only one body has been found.

### Fires Raging in Colorado.

Denver, Col., Oct. 1.—The forest fires which have for the last two weeks been sweeping over the mountains and mesas of Colorado have wrought destruction which cannot be estimated in dollars. Glenwood Springs is the center of an area of fires nearly 300 miles in circumference, nearly every mountain range covered with timber being ablaze. Thousands of acres of the finest timber in Colorado are burning. The carelessness of hunters and campers has undoubtedly caused

these fires, and the loss has already extended into the millions in timber alone.

### Burns 500,000,000 Feet of Pine.

Chippewa Falls, Wis., Oct. 1.—Forest fires are still causing great havoc through this section of the state. No rain has yet fallen in the district tributary to this point, and the lumber companies are sending hundreds of men into the woods in an endeavor to save the standing pine. It is estimated that already 500,000,000 feet have been destroyed. All trains coming into Chippewa Falls from the north and west are hours late.

St. Louis will be reached next morning. He leaves St. Louis and arrives at Chicago on the 15th, and will remain there until the 19th, possibly longer. On his return to Washington stops may be made at Terre Haute and Indianapolis.

### INDIANS ARE DIFIANT

St. Paul, Minn., Oct. 1.—[Special].—A detachment of the Third Infantry arrived at Walker this morning to arrest twelve rebellious Indians. The troops were informed at once that they could have a fight, but no prisoners. Two hundred are ready to do battle, and the soldiers would be slaughtered if they attempted to make the arrests.

### Saving Ships for the Navy.

New York, Oct. 1.—A dispatch to the Herald from Playa del Este, dated yesterday, says: "One hundred and fifty men under Naval Constructor Hobson are now at work on the raised cruiser Maria Teresa. They have removed a lot of debris from the bilges and have got up steam in the starboard after boiler. The other boilers are all right. Wooden leak stoppers were used in several places today and the compartments then pumped dry. Hobson is removing the guns from the sunken cruiser Almirante Oquendo."

## BUYING OF NEW CROP QUITE BRISK

### FIRST TRANSACTIONS FOR THE SEASON ARE RECORDED.

**Acre Lots Have Been in Demand of Late and Bring Fair Prices—Growers Unwilling to Sell at Existing Rates—Fifteen Carloads Shipped During the Week.**

The Wisconsin Tobacco Reporter chronicles the fact that the first buying of the '98 crop on the poles in this locality has taken place this week. A few dealers have been riding from this market and something like fifty acres contracted for by W. S. Brill, representing Kerbs, Wirthum & Schiffer, of New York. The prices paid are about the same as the opening sales for the '97 and call for delivery in the bundle, fillers taken out. Sales reaching us are:

W. and E. Bussey, 7 acres at 6 1/2 bl.

W. D. Hemphill, 8 acres at 6 cents.

Geo. W. Hall, 8 acres at 6 1/2 cents.

L. Bunting, 2 1/2 acres at 6 1/2 cent.

Samuel Hall, 4 1/2 acres at 6 1/2 cents.

Samuel Hall, 4 1/2 acres at 5 1/2 cents.

Roy Saunders, 5 acres at 5 1/2 cents.

Otto Ricks, 5 acres at 5 1/2 cents.

While many of the growers seem unwilling to sell at these figures the opinion of the dealers is that they will be able to secure about all the tobacco they will be able to care for at about the prices quoted.

Sampling of the '97 is still being pushed along by many of the packers, but no sales of old leaf of any magnitude are reported.

Shipments out of storage reach 762 cases or 15 car loads from this station to all points for the week. Since last report 1250 cases of cigar leaf were exported from New York.

### To Bring Sick Soldiers Home.

Washington, Oct. 1.—The war department has posted the following: The president has given instructions that all sick in Porto Rico be sent north as soon as they are able to travel with safety, his purpose being to relieve Gen. Brooke of the further care of the sick and at the same time enable the men to receive the treatment obtainable in the better appointed home hospitals. These men will be furnished as in the cases of those returning from Santiago. About 700 will leave today on the Relief and the Missouri.

## ALL ARE SATISFIED WITH CYCLE MEET

WAS A DECIDED SUCCESS IN  
EVERY WAY.

Cyclers and Spectators Alike Had  
Nothing But Praise for the Manage-  
ment—Rockford Riders Captured  
More Than Their Share—McDou-  
gall, of Milwaukee, a Wonder.

The race meet given by the Janesville  
Cycling club closed in a blaze of glory  
at 5:30 o'clock yesterday afternoon, and  
the large crowd present went away well  
satisfied with the afternoon's sport.

Between 800 and 1,000 people were  
on the grounds, and it is safe to say  
that fully 100 of them were from out of  
the city. If Janesville took as much in-  
terest in cycling and other outdoor  
events as do her neighboring towns she  
might be better off than she now is.

### Came From Out of Town

Members of the Janesville Cycling  
club were well aware of the public ap-  
athy many weeks ago, and they lost no  
time in advertising the event of yester-  
day in all the adjoining towns. The re-  
sult was that the majority of those present  
came from outside the city, making  
the meet a success in every way.

The merchants of Janesville can well  
afford each year to lend their support to  
this favorite outdoor event, especially  
when no county fair or horse races are  
in sight.

Charles I. Sloan, as announcer, gave  
the best of satisfaction and if the club  
members had hunted the country over  
from one end to the other they could  
not have found a better man for the  
place. His voice was clear and distinct  
and no one needed to have him repeat.

The judges and timers all had their  
eyes open and not one decision was  
protested.

Frank Van Wart, of Beloit, as referee,  
gave the best of satisfaction, as did  
also J. D. DeLong as clerk and Frank  
Sutherland as assistant clerk of the  
course.

Fred Huber, of Rockford, started the  
boys in very nicely, and his good work  
couldn't have been improved on.

Following are the events that took  
place after The Gazette went to press:

### Two-Mile Handicap.

H. S. Needham, of Rockford, 80  
yards, first; W. A. Gowing, Beloit, 210  
yards, second; K. Savage, Rockford, 40  
yards, third. Time—4:58.

### One Mile Open.

Natt McDougall, Milwaukee, first; A.  
E. Alverson, Rockford, second; T. W.  
Reimer, Rockford, third. Time—2:52.

### Five Mile Handicap.

K. Savage, Rockford, 75 yards, first; A.  
E. Alverson, Rockford, 75 yards, sec-  
ond; J. B. Tullock, Rockford, 175  
yards, third. Time—13:52.

### Special Events.

Of the special events on the program:  
Grant Taylor, the colored sprinter, ran  
two hundred yards against Sam East-  
man, on a bicycle, the cyclist winning.  
Camp Dean, the one-legged cyclist,  
from Center, rode an exhibition mile un-  
paced in 3:14. This exhibition was  
loudly applauded.

Sam Eastman and W. J. Cole, of  
Rockford, rode a quarter mile on a tan-  
dem, unpaced, in 29 seconds.

Sam Eastman rode an exhibition mile  
paced by a tandem and a triplet to  
break the track record of 2:12, made by  
himself at the meet last year. He suc-  
ceeded in lowering the record four sec-  
onds, making the circuit in 2:08.

In the evening there was a dancing  
party at Columbia hall, which was well  
attended. Smith's orchestra furnished  
the music.

### Side Wheelers.

Janesville's pretty girls were there in  
full force.

A small boy selling lemonade fell the  
whole length of the grand stand, break-  
ing his glasses and spilling all his cir-  
cus fluid.

Beloit had hard luck and her riders  
didn't seem to be quiet fast enough.  
Rockford boys proved to be the whole  
thing, and they easily brought along  
the most attractive delegation of cy-  
clers.

It is estimated that full two hundred  
school children were excused yesterday  
with the consent of their parents.

Many from Brodhead were in attend-  
ance.

An east side business man tore a five  
dollar pair of trousers in his effort to  
save a quarter by climbing the fence.

No less than 400 small boys went over  
the fence without paying admission.

Spectators from Beloit were many.

The street cars enjoyed a good  
business.

No less than 400 bicycles were on the  
grounds.

J. H. Jones had the refreshment  
privilege.

Thomas Baker and John Hill had  
charoe of the gates.

NEW FASHION GOWN OF BROWN CASHMERE FROM HARPER'S BAZAR

A gown of light brown cashmere,  
trimmed in tunic fashion, is most char-  
acteristic of what is new in winter  
modes. Narrow guipure over black vel-  
vet, follows the line of the double shaped  
ruffle, the latter appearing as a contin-  
uation of the bodice, while over the shoul-  
ders is a circular brette. The jacket  
part beneath is cut in a sharp point  
above the waist line, disclosing a vest  
and belt of velvet in the new tone of  
ruby red. This little waistcoat opens  
over a chemise of Irish lace. The  
brette broadens at the shoulder, ren-  
dering more graceful the top of the  
plain close sleeve, then is divided at the  
back below the high straight collar.

The skirt, very smooth over the hips,  
has no pleat or shirring over the waist  
line, the back breadth being sloped  
outward in fan effect, and falling into

natural folds. The width of the skirt at  
the foot is four yards. The proper cut  
of this gown can be obtained only by  
use of the cut paper patterns furnished  
by Harper's Bazar, where the gown  
appears.

In many French gowns the stiffening  
in skirts is now replaced by overlapping  
ruffles on the upper and under sides of  
a shaped flounce of the foundation  
skirt and soft wool linings are some-  
times substituted for the silk or satin.  
But for ordinary wear a narrow band of  
hair cloth or light weight canvas is  
still the usual interlining to either the  
gown or underskirt, according to the  
material and style of the dress.

Quantity of material for gown—  
cashmere, 8½ yards; velvet ¾ yard; lace,  
1 yard; guipure and velvet trimming,  
6 yards.

### THE METHODIST CONFERENCE

Presiding Elder Pease Makes His Report  
—Hilsey Case Dropped.

At the Methodist conference in Wau-  
pau yesterday, when Presiding Elder  
Pease arose to present his report in re-  
sponse to the call of the bishop, there  
was a general movement expressive of  
more than ordinary interest, but Dr.  
Pease surprised the members by not re-  
ferring to Dr. Halsey. He spoke of the  
organization of a new Chautauqua as-  
sembly, a corporate body, in the Janes-  
ville district, and the second in the  
state, the other being at Marinette, in  
the Appleton district. Particular stress  
was laid upon the Epworth league,  
which has a membership of 2,529 in the  
Janesville district.

The case of Mr. Halsey will receive no  
further attention at the hands of the  
conference, the acceptance without ob-  
jection of Presiding Elder Pease's report  
passing characters in this district, in  
which Dr. Halsey is located, settling the  
matter, and tacitly approving the report  
of the investigating committee.

Rev. Walter A. Hall, of Court Street  
church, was appointed chairman of the  
committee on temperance.

The question of equal lay representa-  
tion was decided by a raising vote and  
was unanimously in favor. 110 voting.  
The move was a pleasant one on the  
part of the ministers, as it leaves the  
hymen's conference, which met this  
afternoon, with no business of conse-  
quence before it, much to the dissatis-  
faction of some of the members, while  
the end reached was the purpose sought  
in organization.

THIS DAY IN HISTORY.

1207—Henry III of England died after a reign of 36 years, the longest in English history until the present.  
1684—Pierre Corneille, French tragic dramatist, died in Paris.  
1754—Paul, Emperor of Russia ("Crazy Paul"), was born; murdered by a band of his nobles.  
1781—James Lawrence, naval hero, born in Burlington, N. J.; died of wounds, 1813, on his vessel, the Chesapeake.  
1799—Rufus Choate, great lawyer and orator, born at Essex, Mass.; died at Hartford 1858.  
1839—Arrival at New York of five Russian vessels of war as a demonstration of sympathy.  
1834—The international prime meridian conference met at Washington; it adopted Greenwich as the line for all the world.  
1800—President Harrison signed the McKinley tariff bill, and it became a law.  
1808—Judge Irving B. Bantle, who had been the intimate friend of President Lincoln, died at Alton, Ill.; born 1811.

Milwaukee democrats are "harmonizing" in the good old way. Ex-Gov. Peck and J. S. Donnelly are both seeking the nomination for congressman in the Fourth district, and in speaking of the contest a leading democrat said: "The friends of Mr. Peck imagined that all he had to do was to announce that he would be a candidate to secure the nomination. They now find that the Peck camp is virtually deserted and that Mr. Donnelly has a walk-over for nomination. The success of Mr. Donnelly means that the political power of E. C. Wall and George W. Peck is waning. Wall is the real manager of the campaign, and his reputation as a boss is decidedly distasteful to the new democracy."

It costs money to run a "yellow paper." The New York Press says the New York World paid Joseph Pulitzer one year a net profit of \$1,200,000, but today is not paying him a cent and that Hearst has already sunk \$3,000,000 in The Journal; that he has only \$2,000,000 more to spend, which at the present rate of loss, will last him only two years. These two papers are the yellowest of the yellow, and spend large sums to get any kind of sensational matter.

Mrs. Julia F. Trout, of Buffalo, sued Mrs. Barbara Frieh, of the same city for damages. Mrs. Frieh having made the flimsy allegation that Mrs. Trout used pads to improve her figure. The press reports of the suit are not complete, but at any rate, Mrs. Trout succeeded in convincing the jury that she used no pads, and got a judgment against Mrs. Frieh. That was another fish story nailed.

Andrew Adams, formerly a newspaper reporter at Providence, R. I., is to marry Princess Kalulani, of the Sandwich islands. This should not be classed as an act of Providence, for perhaps Andy has experienced hard luck, and the name of the islands impressed him with the possibilities of the alliance.

In making up the list of prizes for yesterday's bicycle meet the management should have provided enough shoulder braces to insure that each rider would win a pair. It would also have been well to have put up a few tickets good for one hair-cut.

New York democrats realized the folly of making free silver an issue this year, and refused to endorse the Chicago platform. The silver men are few and far between these days, as the Wisconsin democracy will realize after the ballots are cast.

The fire bug who applied the match to genial "Tom" Earle's tobacco warehouse must be a particularly mean man. Otherwise his acquaintance with the Edgerton leaf buyer would be more likely to breed the desire to give "Tom"

a new warehouse rather than destroy the one he has.

Mary Yellin Lease has retired from the political arena, to take up spiritualism. Playing the part of the female sockless Simpson brought no profit to Mary, but as a spiritualist she may be able to make something materialize.

Premier Sagasta is said to desire to sell the Philippine islands to the United States for \$400,000,000. The question, "Why should Uncle Sam buy his own property?" has probably never presented itself to Sagasta.

Milwaukee democrats may turn Ex-Gov. Peck down. But if the matter was left to the democrats of the state at large the former governor would be chosen by acclamation.

The striking Milwaukee tailors will probably soon have a more perfect realization of the old saying that "it isn't the coat that makes the man."

General Charles A. King, Wisconsin's soldier-author, has been placed in command of the new department of Hawaii.

Candidates for office this fall must make a sworn statement as to all their campaign expenses.

General Garcia says Cuba should be annexed to the United States.

Roosevelt will "trim up" Van Wyck.

"It was almost a miracle. Burdock Blood Bitters cured me of a terrible breaking out all over my body. I am very grateful." Miss Julia Filbridge, West Cornwall, Conn.

Prairie Fires in South Dakota.

Deadwood, S. D., Oct. 1.—The timber fires which have been raging with great fierceness all over Lawrence county have been checked by rain. The total loss will reach \$300,000. Both Deadwood and Lead escaped.

Aberdeen, S. D., Oct. 1.—The prairie fires are still doing immense damage in this section, having extended over many miles of valuable farming land.

CHIEF OF POLICE SPEAKS

Ringling Words Advising People to Use Dr. Greene's Nervura.

From His Statement No One Can Doubt that Dr. Greene's Nervura is the Best and Surest Remedy in the World to Cure.

Chief of Police Henry W. Mason, of New Bedford, Mass., writes to the people: "It gives me pleasure to add my testimony in this brief note to that of many others, of the high esteem in which Dr. Greene's Nervura blood and nerve remedy is held in this community. The fact that it is the prescription of a regular physician adds to the confidence in which it is held by the public. I have given Dr. Greene's Nervura to a personal friend who was ill, and was rejected to hear from his own lips an account of the benefit he had received. From report and experience, no doubt exists of the great value of Dr. Greene's Nervura which I recommend."

HENRY W. MASON,  
Chief of Police of New Bedford, Mass.

This is your golden opportunity to be cured and Dr. Greene's Nervura is the remedy to cure you. It is beyond all question the grandest remedy and surest cure the world has ever known, and if you are ailing, out of health, do not feel just right, or if you are weak, tired, nervous, run down, depressed and discouraged, you should get this wonderful medicine at once. For nervous prostration, insomnia, rheumatism, weakness and debility it is the sovereign remedy. It makes the nerves strong, the muscles vigorous, the brain clear, the blood pure and rich—in fact it will make you well and strong.

Do not forget also that you have the privilege of consulting without charge with Dr. Greene, 148 State Street, Chicago, Ill., who is acknowledged to be the most successful physician in curing nervous and chronic diseases, personally or by letter.

## BAR RECOMMENDS FIFIELD FOR JUDGE

GOVERNOR WILL PROBABLY APPOINT HIM.

Recommendation Made Unanimous at a Meeting of the Rock County Bar Association Held This Morning—Other Attorneys Were in the Fight Papers Will Be Sent to Madison.

Members of the Rock County Bar association met this morning in the office of Smith & Pierce, and decided to recommend to Gov. Scofield the appointment of Charles L. Fifield as judge of the municipal court of Rock county to fill the unexpired term made vacant by the death of the late Judge M. M. Phelps.

President William Smith and Secretary E. D. McGowan officiated at the meeting, which was attended by attorneys from every section of the county.

One informal ballot was taken and two formal ones. Mr. Fifield receiving the greatest number of votes on the list. His recommendation was made unanimous and President Smith and Secretary McGowan were instructed to draw up the proper papers of recommendation and forward the same to Gov. Scofield for his approval.

Is Well Qualified.

That Mr. Fifield will be the next judge of the municipal court there seems to be but little doubt. Since the death of the late M. M. Phelps there has been much speculation through the county as to who would fill his place for the remaining eight months of the term. From different portions of the county numerous aspirants began to appear, all anxious to secure the place. At today's meeting other names that came before the association were Attorneys William Smith, C. E. Pierce, John Cunningham, E. F. Carpenter, of this city, and J. B. Dow, of Beloit. A total of forty-three votes we cast.

It was at the suggestion of Governor Scofield that the Rock County bar should meet and select a candidate and that he will abide by their selection there is little doubt.

A Desirable Office.

It will be eight months before a newly elected judge will take his seat. The salary of the office is \$2,600 a year, one-third of which is paid by the city and two-thirds by the county. Out of this the judge must pay his clerk. The term is for six years.

Attorney Fifield is a resident of Janesville, and is a member of the legal firm of Fethers, Jeffris, Fifield & Mount. He is a most worthy young man capable of filling the position.

## HUYKE AND BALFE ARE RECONCILED

FORMER JANESVILLE MUSICIAN AND HIS FATHER-IN-LAW.

There is No Quarrel Between Them, and They Will Live Happily Together Hereafter—Huyke Corrects Misrepresentation of His Matrimonial Exploits Recently Made.

Mr. and Mrs. Henry Huyke are planning to return to Chippewa Falls, where the former Janesville musician has an orchestra. Father-in-law Balfre, who pursued the pair when they left Chippewa Falls on a bicycle, has testified to his forgiveness and all will be serene.

"I was around with him for two weeks in Chippewa Falls," said Prof. Huyke, "and he had no idea who I was. That was before my wife and I went away. I was wearing Burnside whiskers and a long Prince Albert, and looked like a minister. I played in the band at the Chippewa County Fair and saw him and his daughter every day. When his daughter and I ran away he didn't even know what kind of a looking man he had to hunt for. He was taken sick a few days ago, and I went back to Chippewa Falls to see him. He is anxious that everything be smoothed over. The statement published by an Evansville paper June 12 purporting to be from Mr. Balfre was not written by him at all, but by an Evansville editor who will be made to prove what he said. My wife and I were never divorced, and never thought of a divorce."

Sorrento Trouble Settled.

Greenville, Ill., Oct. 1.—Sheriff McAllister, after reaching Sorrento Thursday night, found 300 or 400 armed miners awaiting the arrival of the imported negroes. He wired Deputy Sheriff Wright to send 100 deputies, and sixty were hastily sworn in and sent on the morning train. Friday afternoon at 3 o'clock an agreement was reached between the committee and Mine Manager Williams whereby the men are to receive the scale they demanded and which they were receiving prior to April. The miners will resume work at once. The sheriff received word from the governor that 200 rifles and ammunition would be forwarded for his deputies.

NO GENERAL STRIKE.

Ratchford Says Only Local Troubles Can Happen Before Spring.

Indianapolis, Ind., Oct. 1.—M. D. Ratchford, president of the Mine Workers' union, says the report of an impending general strike among the miners is untrue. "There will be no general strike," said Mr. Ratchford, "during the life of the Chicago contract, which lasts until next May. What will happen in the future no one can tell. There will be no trouble anywhere as long as the operators live up to the contract, and the organizations will protect them. There will be local strikes wherever the operators violate that agreement, but as far as this office is advised there is nothing of that kind in prospect now."

Statement of Japan's Position.

Bedouins Content with Tents.

When the French came into contact with the Bedouin in Algeria, it was thought that a ready way of civilizing him would be to assist him to build himself a permanent habitation. A sheik who was thus favored was full of gratitude to the French engineers who had built him a house. "Since my house was finished," he said, "I have not lost a single sheep. I lock them up in my house every night, and next morning I find them all in safety." "Then where do you sleep yourself?" asked an officer in amazement. "Oh, for myself a sheik can live only in his tent!" said the other with dignity.

## THE SICK SOLDIERS ARE COMING HOME

THE HOSPITAL TRAIN LEAVES JACKSONVILLE TOMORROW.

Lieutenant J. B. Whiting Jr., of This City, Who Is Now in the Regular Army Service, Will Be in Charge—He Probably Has a Thirty-Day Furlough.

A telegram to The Milwaukee Sentinel from Jacksonville says: "Nineteen names have been secured for the hospital car that leaves Sunday evening. The car will be in charge of Lieut. Whiting, of Janesville."

It is supposed that the Janesville sick will be aboard this train.

Dr. J. B. Whiting, Sr., said this morning that he had not heard from his son, Lieut. Whiting, for four days, and knew nothing of his return in charge of the hospital train. Lieut. Whiting has written, however, that he would soon be given a thirty day furlough, so it is supposed that leave of absence has been given him.

Lieut. Whiting is now in the regular army service. When the First regiment was mustered out, Col. Maus, chief medical officer of Gen. Lee's corps, sent an order for Lieut. Whiting to report at headquarters.

"Lieutenant," said Col. Maus, "you are too valuable a man for us to lose. Telegraph your resignation, as a volunteer, to the war department, and I will swear you into the regular army. Then you can go to Havana with us."

Lieutenant Whiting adopted the suggestion, and is now first lieutenant and acting assistant surgeon, U. S. A.

## WEEKLY REVIEW OF TRADE.

Heavy Volume of Business Is Reported.

## NUMBER OF FAILURES FEW.

Yellow Fever Quarantines in the South Have Had a Slight Effect on Trade—Eastern and Middle State Cities Report an Increase.

New York, Oct. 1.—Bradstreet's says:

"Though rather quieter conditions are reported in a number of lines of trade, the volume of business doing the country over is a very heavy one, slightly smaller, so far as bank clearings would indicate, than in September a year ago, but comparing very favorably with corresponding periods in all preceding years. While the edge appears to have been taken off the active demand for some time noted in the west and northwest, and the imposition of yellow-fever quarantines and the low price of cotton in the south have hurt trade in that section, there have been, on the other hand, rather better reports received from the leading eastern and middle state cities, pointing to a fuller development of the long-expected fall trade.

"Accompanying this light shifting of activity from one section of the country to the other has been a continued heavy export movement of leading cereals, unprecedented activity in the manufacturing of nearly all lines of iron and steel and continued good reports as to gross railway earnings, comparisons in this respect, it being remembered, being made with particularly favorable conditions one year ago.

"Rather less pronounced strength is noticeable in the price situation. Wheat, after quite a heavy bulge early in the week on undoubtedly good export demand, foreign buying and nervousness of September shorts, has quieted down slightly and prices are a few cents lower on the week, the result mainly of increased deliveries by farmers taking advantage of the tempting premium existing for cash wheat.

"Business failures for the third quarter of 1898, as reported to Bradstreet's, were the smallest for at least six years past, but because of one very large failure in September the liabilities are larger than one year ago."

## WILL HOLD PHILIPPINES.

Senator Mark Hanna Discusses the Future of the Islands.

Cleveland, O., Oct. 1.—The Leader has from its Washington correspondent the following interview with Senator Hanna concerning the Philippine question, which is believed to represent the views of President McKinley: "I do not know what the instructions given to our peace commissioners are," said the senator, "but so far as concerns the negotiations which will be instituted in Paris tomorrow I can see no other result than that Spain will have to relinquish her sovereignty over not only Luzon island, but the entire Philippine archipelago. Spain has no reason to expect to be able to retain any portion of the group. She went into the war and lost, and now ought to be prepared to suffer all the consequences which such a defeat implies. I regard the Philippines as lost to Spain, and, that being a foregone conclusion, in my opinion, the problem which next confronts us relates to the form of government which we will give the islands."

## Dreadfully Nervous.

GENTS:—I was dreadfully nervous and for relief took your Karl's Clover Root Tea. It quieted my nerves and strengthened my nervous system. I was troubled with constipation, kidney and bowel trouble. Your tea soon cleared my system so thoroughly that I rapidly regained health and strength. Mrs. S. A. Sweet, Hartford, Conn. Sold by People's Drug Co.

## Troubles of a Pastor's Wife

*This woman was peculiarly afflicted; physicians could do nothing to relieve her, yet she was cured in a simple way. She now sends a message to suffering humanity which should be helpful.*

Probably no other woman ever suffered just as Mrs. Adams did, the wife of Rev. A. R. Adams, pastor of the Christian church at Blandinsville, Ill. Physicians were baffled by her ailment, and for years she was compelled to live a life of torture.

To-day she is well and the story of her suffering and recovery will touch a responsive cord in the heart of every woman. "About six years ago," said Mrs. Adams, "my health began to fail. The first trouble I noticed was with my stomach; food did not agree with me, and my appetite failed until I could scarcely eat."

"I would begin to bloat before I was through with a meal, and the food felt like a stone in my stomach."

"After eating I would have pains in my stomach with a smothered feeling which would finally extend into my throat and chest accompanied by a choking sensation. "I began to bloat all over and my hands and feet commenced swelling until I thought I had dropsy."

"In a short time I had pain and soreness in my left side which extended across my back accompanied by dizziness, and then followed severe paroxysms of pain extending from the lower part of my stomach into the region of my heart."

"During these spells a hard ridge as large as my arm would appear in the left side of my stomach and around the left side."

"I had a feeling of heaviness in my head and at times could scarcely hold it up or keep my eyes open, yet when night came I could not sleep."

"I also suffered intensely from female trouble."

"I doctored with ten different physicians, but was not benefited. No two of the doctors diagnosed my case the same."

"One day my husband noticed an article regarding Dr. Williams' Pink Pills for Pale People in the newspaper, and induced me to try the pills."

"I began taking them, but experienced no relief until I had used the sixth box. I continued taking them and after using eleven boxes was greatly benefited."

"I was also troubled with nervous prostration and numbness of my right hand and arm. My hand hurt so at times, tingling and burning, that I could hardly endure the pain, but that has all passed away."

"I now know what it means to eat a good meal without suffering afterwards, and to enjoy a good night's rest."

"I am again able to do my work, and have done more this summer than in all the last four years put together."

"I feel safe in saying that it is all due to Dr. Williams' Pink Pills for Pale People, and consider it my duty to let people know what these pills have done for me, as it may be the means of relief for others who are suffering."

Diseases strange to physicians; symptoms that defied diagnosis, have succumbed to the potent influence of Dr. Williams' Pink Pills for Pale People. Druggists everywhere consider them to be one of the most valuable remedial agents known to science.

## WHY USE

POND'S EXTRACT OINTMENT IS UNEQUALLED FOR PILES.

## Pond's Extract

Why not something else?

Because Dr. J. J. THOMAS says: "It is incomparably superior to any extract of Hamamelis I have ever used." Dr. O. G. RANDALL says: "Nothing can equal Pond's Extract. I have tested others, and yours is four times as strong as the best." Dr. J. C. MITCHELL says: "Pond's Extract of Hamamelis Virginia is the only reliable article I have found." Dr. H. K. WEILER says: "The difference between Pond's Extract and so-called Witch Hazel is the difference between a cent and a dollar." Dr. H. F. MERRILL says: "It is far superior to any I have used in strength and purity." Dr. R. J. HARRISON says: "I have never found any extract equal to Pond's." Dr. POWELL says: "Hereafter I shall use no other than Pond's Extract." And numerous others of similar purport.

And that's why.

We secured while in the New York market an importer's complete line of Ladies' Fancy Hosiery—and as is always the case when we strike a snap, we will let our customers share the benefit. The greater part of the line, which comprises about eight hundred pairs, are novelties, some with black boots and fancy tops, others woven in fancy designs, drop stitch, &c.

There is not a pair in the whole lot but what is either lisle thread or silk, and for this sale, which takes place Saturday, the lot will be divided, with a choice of one line at 50 cents, the other line 75 cents.

No one ever saw a buggy that wouldn't wear out sometime, but the Taylor Buggies have as long a life as any rig manufactured. Some people say that a Taylor rig will outwear three ordinary makes.

People who have used the Taylor rig say they would never ride in any other make. Of course people's opinions differ. Some people who know nothing about Taylor Buggies might say that they would prefer some other make.

A Janesville gentleman said a few days ago that he had ridden in Taylor rigs for the past six years and would never use any other. They are easy riding, very comfortable and will wear like iron. A good many people have said the same thing about the Taylor Buggies. We know somebody is saying good things about our rig, because we are getting new customers every day.

## FOR GOVERNMENT OF CUBA.

The War Department Is Perfecting Plans.

GEN. MILES' SCHEME FAVORED.

The Island Likely to Be Divided Into Three Districts—Gen. Merritt Spoken Of for the Supreme Command—Wheeler Will Have Charge of the Cavalry.

Washington, Oct. 1.—The war department is perfecting plans for the occupation of Cuba. Gen. Miles' scheme to divide the island into three divisions probably will be carried out. Gen. Lawton will have command of one. Gen. Wade of another and Gen. Lee of the third. Gen. Wheeler will have command of the cavalry to be sent to Cuba. The cavalry will operate in the division where it is most needed.

There is some talk of making Maj. Gen. Merritt the commander of all three divisions. After the conclusion of the peace negotiations in Paris, if not before, Gen. Merritt will return to the United States. On his return to this country he will be married to Miss Williams of Chicago. It is not believed that Gen. Merritt would care to take his young wife out to Manila, nor would he be willing to take charge of one of the military departments of the United States while there are more important departments in Cuba and Porto Rico.

Maj. Gen. Brooke has already been assigned to command in Porto Rico, and as he is of equal rank with Gen. Merritt, there is no probability that he will be shifted. The only thing left for Gen. Merritt, therefore, if he is not inclined to return to the Philippines, would be the supreme command in Cuba. There are good reasons for believing that this command will be given him.

## TO OCCUPY CUBA THIS MONTH.

Transportation of Troops Will Begin No Later Than Oct. 20.

Washington, Oct. 1.—The cabinet Friday discussed fully the plans for the military occupation of Cuba. It was decided that the transportation of troops to the island, besides those to be sent to Manzanillo immediately, should be begun as early as Oct. 15 and not later than Oct. 20. This decision was based on information lately received from the American military commissioners at Havana, the details of which are not made public. Preparations are being made to send a large number of engineers to the island very soon. There is immediate need also of several companies of the signal corps, and it is probable that these will be sent to various points in Cuba in the near future.

## Bryan May Be Mustered Out.

Lincoln, Neb., Oct. 1.—Gov. Holcomb has received official notification from Washington that he would be permitted to designate which Nebraska regiment should be mustered out—Col. W. J. Bryan's Third regiment, or the First, now at Manila. The notification is in answer to the plea made by Col. Bryan and the governor last week for the discharge of Nebraska's excess of troops, which is about 700 men. Gov. Holcomb said that he was not prepared to say which regiment he would choose, but it is the general opinion that it will be Col. Bryan's.

## Camp Thomas Death List.

Washington, Oct. 1.—Gen. Boynton, commanding at Chickamauga Park, sent the following dispatch to Washington:

"Replying to request of Secretary of war in your telegram of yesterday, surgeons at camp report total number of deaths in camp from arrival of regulars, April 14, to date, 425 volunteers and one regular. Of this number fourteen were deaths from accident. These figures also include deaths in the Chattanooga hospitals.

## "BOYNTON, Brigadier General."

## Gen. Lee to Follow Wheeler.

Washington, Oct. 1.—The war investigating commission decided to ask Gen. Lee to follow Gen. Wheeler in giving testimony concerning the charges made against the war department, and suggested Wednesday of next week as a date when he could be heard. Gen. Wheeler will be before the commission on Tuesday. Vice-Chairman Denby stated that the policy of calling Gen. Miles or Gen. Shafter had not yet been under consideration.

## Spain Wants More Time.

Paris, Oct. 1.—The opening meeting of the American-Spanish peace commission today is merely formal. Actual business will not be entered upon. The Spanish commission is not yet ready to proceed to the discussion of terms of peace in the absence of necessary instructions and papers from Madrid. An adjournment will therefore be proposed until some day next week.

## Aiger Prepares a Statement.

Washington, Oct. 1.—The secretary of war is preparing a statement for the military investigation committee. He says that in this he will record every order that was issued during the war, beginning with the declaration of war. Not a single order or official communication bearing on the conduct of the war is to be withheld.

## Third Illinois to Stay.

Washington, Oct. 1.—Congressman Joseph G. Cannon had another interview with the president Friday in his effort to have the Third Illinois volunteer regiment, now in Porto Rico, mustered out, but the president said he intended to muster out no more troops until peace is declared.

Stephenson of Marinette, to christen the battleship Wisconsin at the launching event, which will take place at San Francisco on Nov. 26. It was also decided to use wine at the ceremony.

## Warships to Be Kept Ready.

Washington, Oct. 1.—By an order of Secretary Long, all the warships of the United States will be kept in commission. The purpose of this move is to be ready, should the emergency arise, to send a formidable squadron to the Spanish coast in case the peace commissioners fail to reach an agreement satisfactory to the United States.

Madrid, Oct. 1.—The government is awaiting further information from Gen. Rios, governor of the Visayas islands, regarding the progress of the insurrection. Meanwhile it has ordered seven battalions in Andalusia to be ready to embark for the Philippines at twenty-four hours' notice.

## Increase of Army and Navy.

New York, Oct. 1.—A Washington dispatch to the Morning Press says: "President McKinley's message to congress, when it assembles in December, will devote considerable attention to recommendations for legislation for the army and navy. The war with Spain has taught several lessons and demonstrated the necessity of improvements and enlargements in both directions. A material increase in the regular army is now regarded as an absolute necessity, and congress will be urged to take action upon this subject before the close of the coming session. Gen. Miles will recommend the regular army to be increased to 100,000 men, and the president will adopt this suggestion.

## McMillan May Go to England.

Washington, Oct. 1.—President McKinley, it is reported, has decided upon the man whom he will ask to accept the seat of ambassador to England. Senator James McMillan of Michigan is reported to be the man, however.

## Aguinaldo's "Monroe Doctrine."

He did not refer to America or the subjects of a protectorate.
